

Moving Forward Together

Celebrating community connections on Nashville's greenways

2020 Sponsorship Opportunities

Considering the current Covid-19 health crisis, we have made the difficult decision to forego gathering for this Fall's Dinner by the Bridge. However, the Greenways for Nashville 14th Annual Dinner by the Bridge will continue to be an opportunity to raise awareness and critical funding for greenways as we lead the charge to preserve open space and expand the network of trails across Nashville and Davidson County.

We are grateful for our sponsors, and our committee is planning a host of ways to celebrate our mission and honor our sponsors during this unprecedented time. We have faith that our community will unite to support Greenways for Nashville and a future that includes developing more greenways across Davidson County.

With nearly 100 miles of greenways throughout the county, and more on the way, Greenways for Nashville is asking for your support as we move forward together.

About Greenways for Nashville

Greenways for Nashville is a 501(c)3 non-profit organization founded in 1994 with the mission to create, preserve, and promote a system of greenways in Nashville and Davidson County. In partnership with Metro Parks Greenways Division and the Greenways and Open Space Commission, Greenways for Nashville works to leverage public and private funds, build trails and enhancements, and preserve land. To date, Greenways for Nashville has assisted in developing a significant trail footprint of nearly 100 miles, including the protection of over 2,700 acres of floodplain land and the addition of over 7,000 acres of park land through Metro Parks. In addition to fundraising, we educate citizens about Nashville's greenways and provide opportunities for community involvement.
